ACKNOWLEDGMENT

The author is deeply grateful to the Secretary and Archivist Department of the Hudson's Bay Company of London, England, who forwarded much valuable material hitherto hidden away in the treasure house of the Company's archives. Their kind cooperation was indicated by a letter giving permission to use all the material from their archives which is herein contained.

Sincere appreciation is also extended to Dr. R. I. Reid, K.C., M.D., and Dr. Kaye Isamb, Ph.D., Provincial Archivist, who made available certain volumes which could not otherwise be obtained.
